Dear Jack:

Thanks again for your hospitality during my visit to CINCSOUTH last week. I was especially appreciative of the opportunity to meet with the Chiefs of Mission on Monday night.

We have scheduled the next Caribbean Basin Intelligence Steering Group meeting for 1 October 1985 at 1430 hours, after the ceremony for the CJCS and your lunch with John McMahon. As we discussed earlier, this session will be a most opportune time for you to raise the issue of enhanced operational intelligence support, [redacted] is working this and several other issues with [redacted] in order that the Steering Group can be the springboard for renewed momentum in these areas.

I will keep you advised.

Sincerely,
